Ψ IUPUI STRATEGIC PLAN

A NEW VISION FOR IUPUI:

To be a leading urban research institution recognized for the success of our students, our advances in health and life sciences, and our intellectual, economic, and cultural contributions to the well-being of the citizens of Indianapolis, the state of Indiana, and beyond.

- Offer students an innovative and distinctive urban educational experience.
- Translate research into solutions that improve people's lives.
- Work in and with the community, learning together to address urban needs.

AN INCLUSIVE PLANNING PROCESS

In 2012, Chancellor Charles R. Bantz charged Executive Vice Chancellor Nasser Paydar with leading the planning process. Since then,

- Planning committees were formed to govern the planning process
- 50+ stakeholder groups were consulted about IUPUI's future
- IUPUI's peer institutions' strategic plans were reviewed
- 10 strategic initiatives emerged
- 12 task forces formed; 250+ people across IUPUI were involved
- Multiple forums and rounds of review are occurring as the strategic plan transitions to implementation

IUPUI'S STRATEGIC PLAN

Focuses on three broad priorities, each crucial to the success of our institution, our city, and our state.

Establishes 10 strategic initiatives that position the campus for greater strength and excellence as IUPUI prepares to celebrate its 50th anniversary in 2019, and Indiana University prepares to celebrate its bicentennial in 2020.

Contributes to key state and national goals for degree attainment and economic development.

Builds on existing sources of strength, honors prior investments, and reflects widespread stakeholder input into the planning process.

PRIORITY 1

THE SUCCESS OF OUR STUDENTS

Promote undergraduate student learning and success.

Create more effective environments, practices, and support systems for student learning, success, and degree attainment.

Increase capacity for graduate education.

Develop tomorrow's intellectual leaders and scholars through enhanced opportunities in graduate education, especially Ph.D. and interprofessional programs.

Transform online education.

Increase our efforts to improve access and opportunities for learners through technology-enhanced tools and practices.

Optimize enrollment management.

Implement a strategic enrollment management plan that expands our reach, builds enrollments, retains students, and increases degree attainment.

PRIORITY 2

ADVANCES IN HEALTH & LIFE SCIENCES

Leverage IUPUI's strengths in health and life sciences.

Use our national leadership position in health and life sciences to advance our capabilities and contributions through interdisciplinary efforts—often referred to as *interprofessional education* and collaborative practice.

PRIORITY 3

CONTRIBUTIONS TO THE WELL-BEING OF THE CITIZENS OF INDIANAPOLIS, THE STATE OF INDIANA, AND BEYOND

Accelerate innovation, discovery, and creative activity.

Enhance our capacity and support for research, scholarship, and creative activity to improve the quality of life, generate new knowledge, and fuel economic development.

Deepen the campus commitment to community engagement.

Increase service and experiential learning opportunities, stimulate economic development, and use outreach and engagement to address urban community needs.

Strengthen internationalization efforts.

Forge and expand effective international partnerships and prepare our students to be global citizens.

Promote an inclusive campus climate.

Seek, value, and cultivate diversity in all of its forms and create an environment where all campus community members feel welcomed, supported, included, and valued.

Develop faculty and staff.

Invest in and develop faculty and staff so that individuals realize their potential to contribute to institutional excellence and success.

IUPUI's strategic plan aligns with the Indiana University Bicentennial Strategic Plan and supports the following university principles of excellence:

1. An Excellent Education
2. An Excellent Faculty
3. Excellence in Research
4. The International Dimension of Excellence
5. Excellence in the Health Sciences and Health Care
6. Excellence in Engagement and Economic Development
7. Excellence in Advancement
8. Building for Excellence
9. The Centrality of Information
10. Responsible Stewardship of Indiana University's Resources

By continuing to grow as a leading urban center for education, research, health and life sciences, and community engagement, IUPUI will further IU's development as one of the great research universities of the twenty-first century and the pre-eminent institution of higher education in Indiana.

See our commitment in action.
